Introduzione

USES

Water-soluble alkaline detergent/degreaser

Descrizione

SAE - ISO VG - NLGI Gradation

not applicable

Operating temperature °C

not applicable

Viscosity index

-

Properties and performance

Non-flammable. Non-foaming detergent. Biodegradability →=90%. To be used neat or diluted (50% max) in water. Effectively removes dirt, soil, oily and black deposits from industrial equipment and floors. Specially effective in hot-forging workshops and for intermediate cleaning in metal-cutting with water-based fluids.
