

# ALUSYNT&REG; FGC

□

**Categorie Prodotto:** [Air compressors and vacuum pumps](#), [Food industry](#), [Oils](#), [Agriculture](#), [Energy and environment](#), [Glass industry](#), [Paper industry](#), [Plastics industry](#), [Pharmaceutical industry](#)

## Introduzione

### USES

Compressors and vacuum pumps

## Descrizione

### SAE - ISO VG - NLGI Gradation

ISO: 32, 46, 68, 100, 150

Operating temperature °C

From - 40 to +200

Viscosity index

Greater than 135

## Properties and performance

Synthetic oils suitable for any kind of compressor or vacuum pump (vane, reciprocating, helical screw etc.). Suitable for compressors and vacuum pumps used in the food and pharmaceutical industry in general, and wherever regulations call for the use of non-toxic oils. Refer to Manufacturer recommendations or contact our Technical Dept for help in selecting viscosity.

## Specifications and fields of use

Oil drain periods and separator life longer than mineral oils.
