## Introduzione

### USES

Emulsifiable detergent degreaser

## Descrizione

### SAE - ISO VG - NLGI Gradation

not applicable

Operating temperature °C

not applicable

Viscosity index

-

## Properties and performance

Low-foaming, non-toxic and non-caustic detergent-degreaser. →=90% biodegradable. It can be water-diluted in any proportion and is ideal for quickly removing oils, grease and dirt in general. It can be used in automatic washing plants, does not generate much foam and is easily rinsed. Do not use at temperatures above 65°C. See the relevant Technical Data Sheet for directions and dilution percentages.
