

SYNGREASE SP HV

□

Categorie Prodotto: [Bearings](#), [Cogs and gear-shafts](#), [Grassi](#), [Industria tessile](#), [Cement industry](#), [Lumber industry](#), [Glass industry](#), [Paper industry](#), [Plastics industry](#)

Introduzione

USES

Paper industries, Ceramic industries, Steel industries, Glass industries.

Descrizione

SAE - ISO VG - NLGI Gradation

NLGI 1,2

Operating temperature °C

Da - 25 a + 250

Viscosity index

-

Properties and performance

Lubricant grease formulated with synthetic hydrocarbon base oils, designed for mechanical parts operating in severe working conditions and in presence of water.
