

UNIONPLAST R-MS

□

Categorie Prodotto: [Cogs and gear-shafts](#), [Food industry](#), [Oils](#), [Agriculture](#), [Energy and environment](#), [Cement industry](#), [Steel industry](#), [Textile industry](#)

Introduzione

USES

Gearboxes and gears under severe load conditions

Descrizione

SAE - ISO VG - NLGI Gradation

ISO 68, 100, 150, 220, 320, 460, 680, 1000

Operating temperature °C

From - 15 to +180

Viscosity index

Greater than 100

Properties and performance

Special Molybdenum Disulphide-treated "EP" oils. Protect against wear, reduce noise levels, lubricate under boundary conditions and when there is a temporary shortage of lubricant.

Specifications and fields of use

Micropitting performance as specified by Flender AG. Exceed the requirements of: U.S.Steel 224 – ANSI/AGMA 9005-E02 - DIN 51.517.
